

Inspiring the World through Green Meetings

Marriott International aspires to be the global leader that demonstrates how responsible hospitality management can be a positive force for the environment and create economic opportunities around the world, in the communities where we work and live!

JW Marriott Indianapolis – Marriott Place Indianapolis

- Located in an urban area on a previously developed site, eliminating the impact of new development.
- Previous buildings removed and recycled, diverting recyclable materials from entering a landfill.
- Building materials largely sourced from manufacturers in the Midwest reducing transportation resources and energy.
- Low volatile organic compound (VOC) paints, coatings and carpet systems to increase occupant health and comfort.
- Underground parking, reducing the urban heat islands created by large parking lot surface areas in urban centers.
- Tan thermoplastic olefin (TPO) roof membrane to reflect sunlight and further reduce the urban heat islands attributed to dark roofs in urban centers.
- Guest room bath down lights and reading lights utilize 10 watt LED's.
- Guest room corridor down lights utilize 20 watt LED
- In room energy management system by Johnson Controls
- Immediate access to public transportation, reducing the need for personal automobile use.
- Conveniently located within walking distance from public amenities and places of interest to guests.

Marriott Hotels and Resorts System Wide

- Replaced light bulbs with energy-efficient bulbs
- Installed low-flow showerheads and toilets
- Water/energy saving linen program
- Operates the most ENERGY STAR® certified properties in the industry, as part of Marriott's portfolio of brands
- Involves its global workforce in eco-volunteerism
